#2 billboard charting artist, Veronica Lewis, is unleashing her Indie/Alternative debut, "Too Late For Tears" Summer 2024. Merging American Roots Rock and a 90's Indie/Alt Rock vibe, this sonic coming-of-age odyssey reflects Veronica's powerful vulnerability as a songwriter and musician.

With luscious guitar riffs, dreamy keys, earworm melodies, and anthem-evoking choruses, "Too Late For Tears" hits with a tumult of elation and melancholy. Veronica wrote, produced and performed all vocals, keys, guitar, and bass on *Too Late For Tears*. An album which she says, "is about things we all struggle with... disillusionment, self-discovery, the beauty and flaws you find in yourself, and the world around you."

Sitting squarely in the "indie bedroom" style, Veronica's is part of the groundswell of female artists who are redefining the meaning of singer/songwriter in modern American rock. Veronica cites her inspirations as Soccer Mommy, Julia Jacklin, Sharon Van Etten, boy genius, and Lizzy McAlpine.

REMEMBER HER NAME. She's going to be here for a while with a career that's already off to an outrageous start.

**DOWNBEAT**  
Jazz, Blues & Beyond SINCE 1934

Gifted with a voice that combines power with an elastic range, Veronica belts out a narrative with authority and pounds out a piano solo with marvelous muscularity.

**Boston Herald**

Veronica sings with a sweet, booming soul voice and plays piano like Dr. John. She just might kickstart a new Generation Z trend.

**Living Blues**

Spellbinding, so absolutely astounding, there aren't enough superlatives to describe such a monster talent.
